FABRIC CONSUMPTION

52.97 piedi pelle

APPLIED STANDARDS

- WOOD PARTS: FSC - CARB ATCM 93120 Phase II - U.S. EPA TSCA Title VI - CANFER.
- Seat designed in compliance with the safety, resistance and durability requirements according to UNI EN 16139.

INSTRUCTION FOR USE AND MAINTENANCE

This product is for indoor use.

- The armchair assembly must be carried out according to our "assembly instructions".
- Avoid use of solvents and abrasives.
- Use steam to recover dents on foam; you can ask for the related illustrated instructions.
- The possible occurrence of smell given off from the product as it is taken out of the packing does not represent any source of danger and will fade away by exposing the product in a ventilated environment.
- Disposal: at the end of the life cycle of the product, it must be duly conveyed to the public network for disposal of urban waste. Please refer to your local norms and regulations. The polyurethane foam is an inert and non-polluting material. It can be disposed of like a standard non-recyclable waste.
